* OF BALTIMORE COUNTY
* Case No. 94-58-A

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Deputy Zoning Commissioner as a Petition for Variance filed by the owners of the subject property, Home Depot USA, Inc., by Stuart D. Kaplow, Legal Representative. The Petitioners seek relief from Section 409.6.A.2 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit 558 off-street parking spaces in lieu of the required 683, and from Section 238.2 of the B.C.Z.R. to permit a side yard setback of 17 feet in lieu of the required 30 feet for the proposed expansion of an existing garden center, as more particularly described on Petitioner's Exhibit 1.

Appearing on behalf of the Petition were Karl Frey, Real Estate Manager for Home Depot USA, Inc., Gary Zarnicki and Jack Stamm. The Petitioners were represented by Stuart D. Kaplow, Esquire. There were no Protestants present.

Testimony indicated that the subject property, known as 9921 Pulaski Highway, consists of 11.66 acres, more or less, and is the site of a Home Depot retail operation. The Petitioners are desirous of expanding the existing garden center with a proposed 16,500 sq.ft. addition on the south side of the existing building as shown on Petitioner's Exhibit 1. The proffered testimony presented by Mr. Kaplow indicated that the proposed expansion will allow the Petitioners to provide outside storage of plants

for sale to the general public. As to the parking variance, Mr. Kaplow testified that the Home Depot shares its boundary with the Price Club and other tenants located to the south and west of the Home Depot at this location and much of the on-site parking is shared. Due to the proposed expansion of the garden center, additional parking must be provided. The side setback variance is necessary as a result of the close proximity of the proposed garden center expansion to an interior lot line located between the Home Depot and Price Club. Although this lot line is not noticeable by visual inspection of the site, it is clearly depicted on the site plan submitted into evidence as Petitioner's Exhibit 1. Testimony indicated that the Home Depot has upgraded and expanded its garden centers at many of its other locations in Baltimore County and elsewhere around the State of Maryland, and that this is just one more expansion in a line of many planned for the Home Depot.

An area variance may be granted where strict application of the zoning regulations would cause practical difficulty to the Petitioner and his property. McLean v. Soley, 270 Md. 208 (1973). To prove practical difficulty for an area variance, the Petitioner must meet the following:

- 1) whether strict compliance with requirement would unreasonably prevent the use of the property for a permitted purpose or render conformance unnecessarily burdensome;
- 2) whether the grant would do substantial injustice to applicant as well as other property owners in the district or whether a lesser relaxation than that applied for would give substantial relief; and
- 3) whether relief can be granted in such fashion that the spirit of the ordinance will be observed and public safety and welfare secured.

Anderson v. Bd. of Appeals, Town of Chesapeake Beach, 22 Md. App. 28 (1974).

- 2 -

It is clear from the testimony that if the variance is granted, such use, as proposed, will not be contrary to the spirit of the B.C.Z.R. and will not result in any injury to the public good.

After due consideration of the testimony and evidence presented, it is clear that practical difficulty or unreasonable hardship will result if the variance is not granted. It has been established that special circumstances or conditions exist that are peculiar to the land or structure which is the subject of this variance request and that the requirements from which the Petitioner seeks relief will unduly restrict the use of the land due to the special conditions unique to this particular parcel. In addition, the variance requested will not cause any injury to the public health, safety or general welfare. Further, the granting of the Petitioner's request is in strict harmony with the spirit and intent of the B.C.Z.R.

Pursuant to the advertisement, posting of the property, and public hearing on this Petition held, and for the reasons given above, the variance requested should be granted.

THEREFORE, IT IS ORDERED by the Deputy Zoning Commissioner for Baltimore County this 27th day of October, 1993 that the Petition for Variance requesting relief from Section 409.6.A.2 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit 558 off-street parking spaces in lieu of the required 683, and from Section 238.2 of the B.C.Z.R. to permit a side yard setback of 17 feet in lieu of the required 30 feet for the proposed expansion of the existing garden center, in accordance with Petitioner's Exhibit 1, be and is hereby GRANTED, subject to the following restriction:

- 1) The Petitioners may apply for their building permit and be granted same upon receipt of this Order;

- 3 -

however, Petitioners are hereby made aware that proceeding at this time is at their own risk until such time as the 30-day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the relief granted herein shall be rescinded.

Petition for Variance

Dear Mr. Kaplow:

The Zoning Plans Advisory Committee (ZAC) has reviewed the plans submitted with the above referenced petition. The attached comments from each reviewing agency are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties, i.e., zoning commissioner, attorney and/or the petitioner, are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case.

Enclosed are all comments submitted thus far from the members of ZAC that offer or request information on your petition. If additional comments are received from other members of ZAC, I will forward them to you. Otherwise, any comment that is not informative will be placed in the hearing file. This petition was accepted for filing on August 5, 1993, and a hearing was scheduled accordingly.

The following comments are related only to the filing of future zoning petitions and are aimed at expediting the petition filing process with this office.

1. The director of Zoning Administration and Development Management has instituted a system whereby seasoned zoning attorneys who feel that they are capable of filing petitions that comply with all aspects of the zoning regulations and petitions filing requirements can file their petitions with this office without the necessity of a preliminary review by zoning personnel.

RE: Preliminary Petition Review (Item #61)
Legal Owner: Home Depot USA, Inc.
9921 Pulaski Highway
15th Election District

Dear Mr. Kaplow:

At the request of the attorney/petitioner, the above referenced petition was accepted for filing without a final filing review by the staff. The petition was accepted with the understanding that all zoning issues/filing requirements would be addressed. A subsequent review by the staff has revealed unaddressed zoning issues and/or incomplete information. The following comments are advisory and do not necessarily identify all details and inherent technical zoning requirements necessary for a complete application. As with all petitions filed in this office, it is the final responsibility of the petitioner to make a proper application, address any zoning conflicts and, if necessary, to file revised petition materials. All revisions (including those required by the hearing officer) must be accompanied by a check made out to Baltimore County, Maryland for the \$100.00 revision fee.

This site was originally approved as having combined maneuvering and parking with the adjacent commercial/warehouse uses. 58 parking spaces are shown off-site on this plan. A count of on-site spaces indicates that there are 517 parking spaces available on site (lot 3), while the variance request is to permit 550 parking spaces. Document the right to utilize the off-site spaces and provide parking calculations for the overall adjacent Price Company uses which clearly indicate that these spaces are surplus. Note on the plan that a parking agreement to permit the maneuvering and parking for the 58 spaces on the Price Company property will be filed with the zoning office prior to building permit application.
